

ITACA SRL

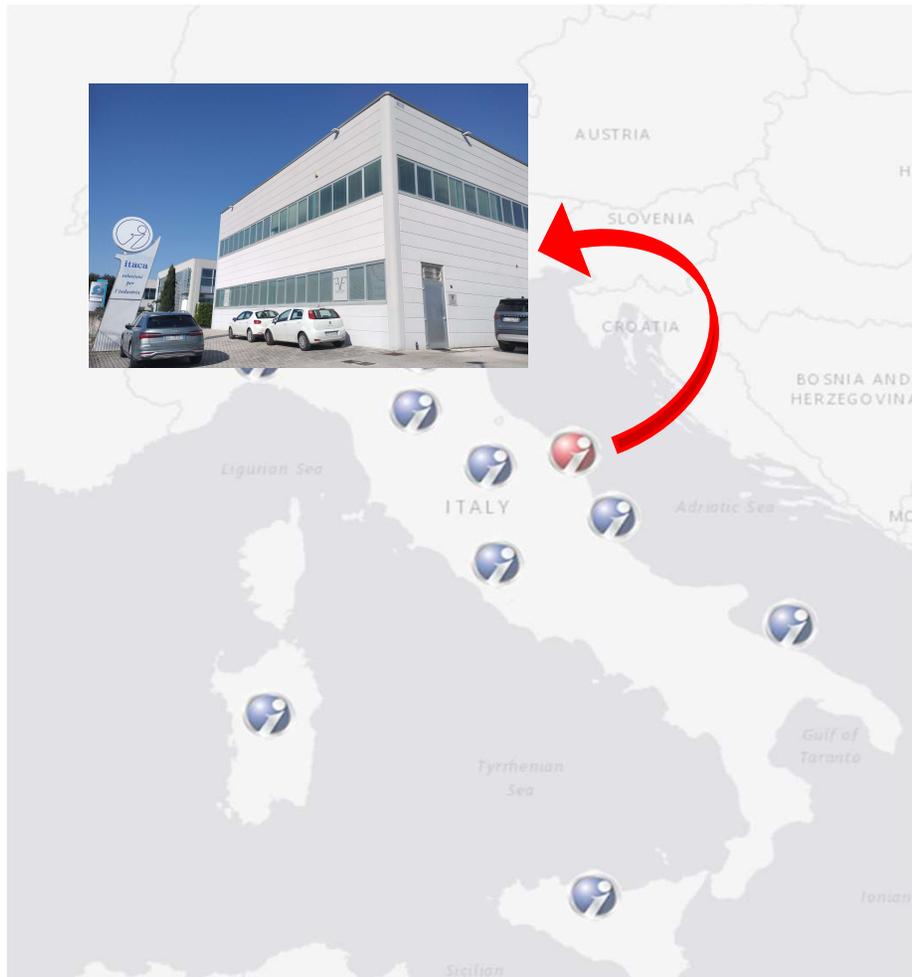

TAILOR MADE SOFTWARE SOLUTIONS

COMPANY PROFILE

OUR HISTORY

ITACA was founded in February 1994, born from the ingenuity and desire to leverage skills acquired in the field of industrial automation. The goal was to provide a range of products and services aimed at optimizing production processes through technological and methodological innovation.

Over the years, the company has grown from implementing small systems locally to collaborating on large industrial projects with established European multinationals. Particularly since the early 2000s, ITACA has been supplying monitoring and control systems to the **Electrolux Group** in the household appliances sector, the **Aptar Group** in the food-beverage, beauty-home, and Pharma sectors, the **Smurfit Kappa Group** in the packaging and closure systems sector, the **InBlu Group** in the footwear sector, and many other players in the global production world.

OUR TEAM

The extensive experience of our engineers and analysts ensures reliable outcomes for companies in the realms of information systems and factory automation.

In factory automation, ITACA is your partner for addressing specific production challenges. We develop integrated hardware and software solutions for process monitoring and control, as well as production data collection systems.

The **customization, flexibility, and engineering of our solutions**, typically tailored to meet customer needs, have been key to our company's success in recent years..

STRENGTHS POINTS

Consolidated Experience

ITACA SRL boasts extensive experience in the sector, with over 30 years dedicated to developing MES software. This long-standing history of success attests to the company's ability to adapt to evolving market demands and deliver high-quality solutions to its customers.

Continous Innovation

Despite its longstanding presence in the sector, **ITACA SRL** remains at the forefront of technological innovation. With a team of expert engineers and programmers, the company consistently develops and implements cutting-edge MES solutions that meet the evolving needs of manufacturing companies.

Strategic Collaborations

ITACA SRL has established strategic collaborations with other companies and partners in the sector, enabling it to offer integrated and comprehensive solutions to its customers. These partnerships allow the company to provide high-level services and support, contributing significantly to the success of its clients in the global market..

COMPETITIVE ENVIRONMENT

ITACA's ability to adapt to customer needs is demonstrated through our flexibility and commitment to providing excellent after-sales support. This ensures tailor-made solutions and long-term customer satisfaction.

Itaca stands out from other players in the sector because it is not just a software house; instead, it offers solutions that are custom-designed based on the specific needs of each customer, ensuring a personalized and results-oriented approach.

Proudly, Itaca is not just a service provider but considers itself a true partner to its customers. We understand that business needs evolve over time, driven by the transformations of globalization. That's why we are committed in supporting our customers over the long term, offering constant and adaptable assistance to meet their changing needs. The trust our customers place in our commitment and our ability to support their growth is the driving force behind all our actions.
